[REDACTED]

[REDACTED]

DIRECTOR OF BUSINESS DEVELOPMENT

---

For over 20 years, [REDACTED] has been a successful entrepreneur focused on building IT businesses through meaningful relationships. His flagship company, [REDACTED], was founded to serve as the premier data center provider for IT solutions looking for a secure and scalable IT.

At [REDACTED], [REDACTED] drives scalability and efficiency with his thorough understanding of data center technology and efficiency. While establishing himself as a successful entrepreneur in 2000 with founding his marketing company, Mushoo Inc, [REDACTED] simultaneously became a shareholder of UnitedLayer; exceeding business development goals. These two successful businesses led [REDACTED] to create [REDACTED], a company focused on delivering scalable and secure data center solutions wherever clients need it.

[REDACTED] is a highly respected business development expert who has helped many technology companies achieve great success.

[REDACTED] received his Bachelor of Science in Physiology and Bachelor of Arts in Sociology from UCLA and his masters in Bio-Technology from NYU.
